

IMPORTANT REMINDERS

OARRS
ACADEMY

EDUCATION FOR Rx SAFETY

Important reminders when using OARRS Academy

1. The sample site is a training tool to educate about the process and value of including a state's prescription monitoring program as part of the professional decision-making process. Along with this sample tool, students are encouraged to review patient OARRS reports with their preceptors during their internships and clinical rotations.
2. The login email and password for each school is preset; students are not able to create their own accounts. Please **DO NOT** reset the passwords.
3. All schools are using the same patients. Please **DO NOT** make any changes to the prescription data already added to each of the sample patients.
4. Faculty and students may create their own sample patients and manually add prescriptions to those patients to create different scenarios. If new "patients" and profiles are added, they must truly be "fake" patients.
5. Any questions or concerns may be addressed to the following email address: **info@OhioPMP.gov**.
